

UX PROCESS

System Model Diagram

UX PROCESS SIMPLIFIED

A course by : Muhamad Ahsan Pervaiz

Proposed System Model

System model is the high level bird's eye view of what your website or app does and who else is involved in its overall workflow

If you don't have any product yet then we will build a proposed system model

UX Design Process Simplified

UI/UX Interaction Designer

What are Work Roles?

Work roles are users of the system but on a broader perspective. Each work role will have different jobs and tasks.

For example in my FrokLand ecommerce website

A **shopper**, An **Admin**, **Delivery** Guy/Company, **Supplier** all these are different work roles
